This equipment is mainly matching with smart phone via Bluetooth connection. Firstly you need to download the “Gwatch” APP in your cell phone, and then connect the Bluetooth of the watch and the cell phone. Once the connection is successful, you can sync the date and time in the phone, also you can sync the data in the watch into the APP in the cell phone. The detail of the Bluetooth connection please refer the below “Bluetooth connection and binding” Our company reserve the right of modify the content of the manual without prior notice.

Watch and Buttons Overview

To Turn Your Watch On
1. Remove the LCD display sticker on the watch face.
2. Hold the power on/off button for 3 seconds until the screen turns on.
3. If you can not turn on your smart watch, it might due to the low battery volume, in this case, please charge your smart watch and try again.

Application Installation
1. Scan the QR Code in the smart watch to install T6 app onto your cell phone.
2. Or search the application “Gwatch” in the APP store to download the app onto your cell phone.

Bluetooth Connection And Binding
1. Turn on the Bluetooth in your smart watch. (Path: Settings - BT settings-on)
2. Turn on the Bluetooth in your cell phone. Login onto your G watch app account, click “disconnected” on the top right corner.
The phone will start to search nearby device automatically. Find the device “T6” and click to start pairing.
Home Screen And Main Menu

The Watch home screen can display current time. Slide the screen to the right to enter into the main menu. Slide up/down to switch the menu.

Major Functions
Sedentary Reminder

Find the “sedentary” on the main menu, click to start setting, select the reminder time (minutes), as shown below:

![Sedentary Reminder](image)

The watch will remind you to have a rest at the time you set with ringtone and vibration.

Sleep Monitoring

1. Strap the watch snugly around your wrist
2. In “Sleep” mode, click “start”, the smart watch will start to monitor your sleep quality according to your sleep time and vibration amplitude, as shown below:

![Sleep Monitor](image)

Heart Rate Monitoring

1. Strap the watch snugly around your wrist

## Care and Maintenance

To ensure proper function of your watch:
- The Watch Buttons are not intended for use in or under water as this may force water past the seals.
- Avoid rough usage or severe impacts to the watch.
- Keep the metal plate free from dirt, oils, or other contaminants.
- Periodically clean the watch using a soft cloth with mild soap and water, or similar cleaning solution.
- Keep the watch out of extreme heat or cold.
- Do not expose the watch to intense direct sunlight for long periods of time.
- Do not expose the watch to chemicals such as gasoline, alcohol, or solvents.

## Certification

Smart Watch
- Model: T6
- FCC ID: 2AMKU-T6

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
